CRITERIA FOR SIGN PERMIT

1. Is the sign supported by uprights or braces in or upon the ground surface?
 yes no
2. Is sign served by an electrical circuit directly connected to the sign?
 yes no
3. Is the sign greater than 25 square feet in surface area (one side)?
 yes no
4. Is the sign more than six feet above the ground (mounted height)?
 yes no

If you answered 'no' to question #1 or 'yes' to any of the other questions, a construction permit is required.
